### Clean Slate (CS)

In Temenos, you all are the Storytellers of many adventures. The days of happiness and sadness; the moments of fulfillments and disappointments; the feelings of contentment and displeasures -- all are being the mileposts for you to reach your true purpose of life. Clean slate is a process, that differentiate the delusions from realities. We facilitators can teach you "Why being honest is necessary. Whatever we do the responsibility lies with us, so without running away from it, we can always choose to face." So, Clean slate is an eliminating process of the emotional baggage that drag a person down.

### True Personal Vision (PV)

When we start observing and making conclusions about ourselves and our environment, the conclusions we make affect our identity, vision and roadmap. Temenos symbolizes the Greek word for container or vessel. It is about awakening yourself to self-healing and self-realization, that will help you to light the fire of transformation in your soul. We absolutely believe in The Power of Vision. Humans achieve the authentic insights of Vision from a lifetime exploration of connecting themselves to others and acknowledging their existence as a part of container.
